

Tamarisk Park Renovation **(Under Design)**

The improvements at Tamarisk Park could include:

- the addition of shade structures
- new play equipment
- water play features
- improvements to existing baseball field
- new restroom facility
- landscape and irrigation improvements
- hardscape improvements

A Community workshop was held at Tamarisk Park to solicit input from area residents to incorporate into potential park improvements. Based on community input the consultant developed conceptual plans for the proposed park improvements, which were then presented to the Park and Recreation Commission at its meeting of March 17, 2011 and April 21, 2011. The City Council selected its preferred conceptual plan on June 7, 2011, and directed staff to proceed with the final design of the project.
